THE SPICE ROUTE

ELARA DINING

98%uptime across all sites

Three Products. One Platform.

Each tool is powerful on its own — together they eliminate every gap between guest, floor, and kitchen.

[Product Screenshot]

KITCHEN

TableWorx KDS

- ✓ Real-time order display across all kitchen stations
- ✓ Colour-coded status: queue, preparing, ready
- ✓ Works offline — orders never drop

Explore →

[Product Screenshot]

FLOOR

TableWorx Waiter App

- ✓ Instant table-ready and course-fire alerts
- ✓ Split-bill and payment management at the table
- ✓ Synced with KDS and Customer App in real time

Explore →

[Product Screenshot]

GUEST

TableWorx Customer App

- ✓ Scan QR to browse menu and order — no download
- ✓ Pay and split bills directly from the table
- ✓ Supports multi-language menus

Explore →

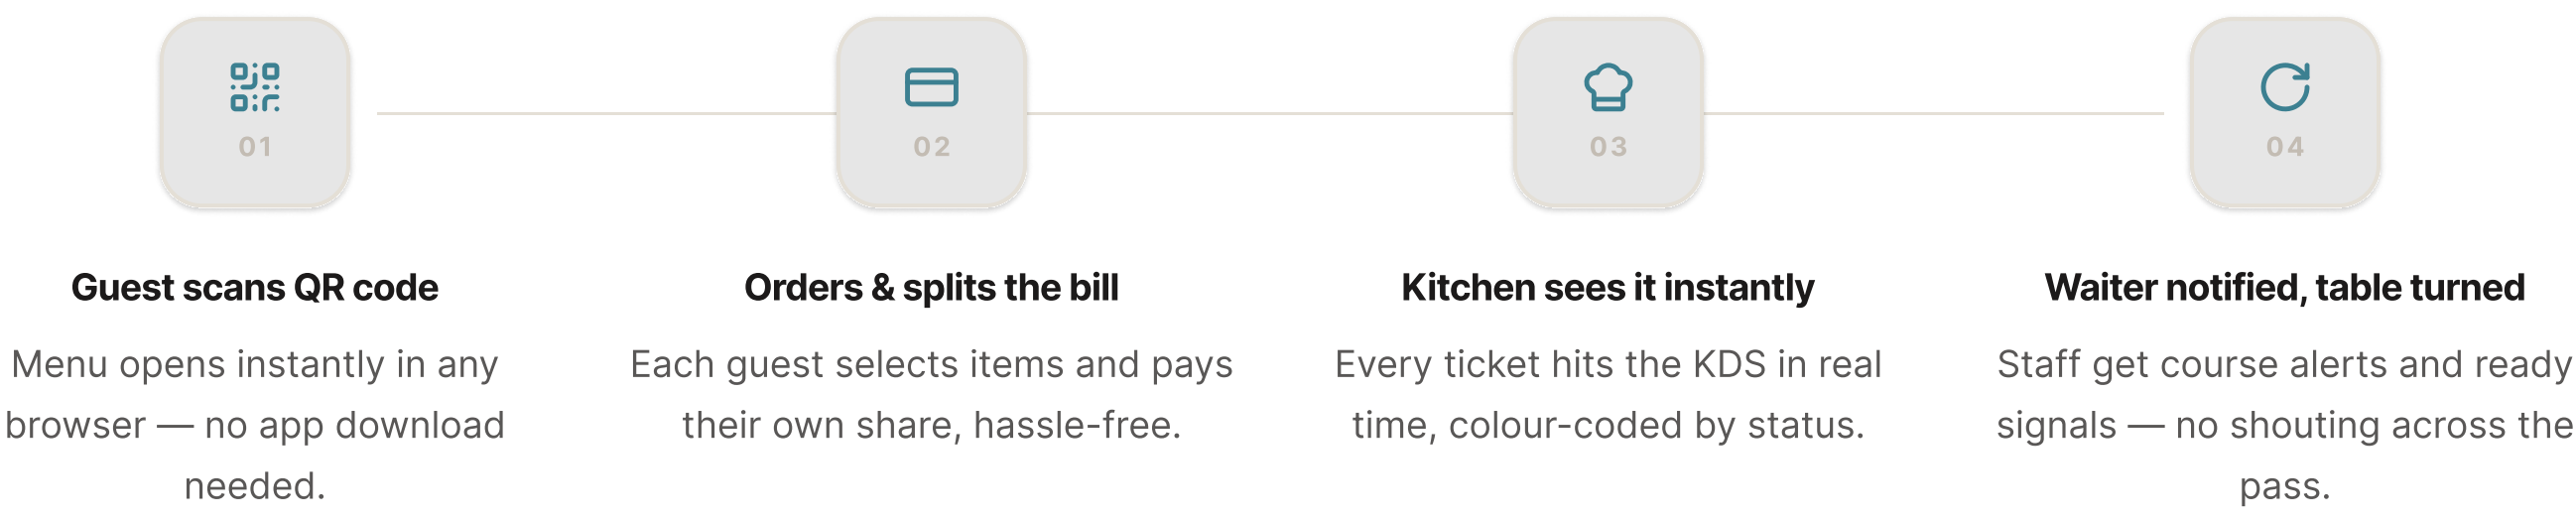

Why Offline-First Matters

Restaurant Wi-Fi drops. Mobile signals fail. TableWorx stores every order, menu update, and payment locally first — syncing automatically the moment connectivity returns. Your service never pauses, your kitchen never goes dark, and your guests never see an error screen.

How It Works

Four steps. Zero friction. Every service.

TableWorx cut our order errors by 60% in the first month.
Our kitchen team says it's the best thing we've ever installed.

MO

Marcus Osei
Head of Operations, Harbour House Restaurant Group

Why Offline-First Matters

Restaurant Wi-Fi drops. Mobile signals fail. TableWorx stores every order, menu update, and payment locally first — syncing automatically the moment connectivity returns. Your service never pauses, your kitchen never goes dark, and your guests never see an error screen.

How It Works

Four steps. Zero friction. Every service.

01

Guest scans QR code

Menu opens instantly in any browser — no app download needed.

02

Orders & splits the bill

Each guest selects items and pays their own share, hassle-free.

03

Kitchen sees it instantly

Every ticket hits the KDS in real time, colour-coded by status.

04

Waiter notified, table turned

Staff get course alerts and ready signals — no shouting across the pass.

05

TableWorx cut our order errors by 60% in the first month. Our kitchen team says it's the best thing we've ever installed.
